

A collaboration between Japanese Craft Liqueur Junzo-sen &

Kikusui Shuzo

# Fruits + Nigori Sake

The silky smooth Nigori Sake "Shiroki Tenryu" collaborated with Junzo-sen fruit juice.

Shiroki Tenryu, a Honjyozo Nigori Sake brewed by Kikusui in Nagano has a rich aroma of rice and creamy mouthfeel which associate well with Japanese craft juices of Junzo-sen.

For over 25 years, Junzo-sen has been supplying Japanese high-quality fruit juices that are rich and cloudy.

By blending them, a harmonic marriage of tastes has resulted. This fruity yet not too sweet liqueur pairs well with a variety of dishes.

Tasting Comment	The perfect balance between refreshing acidity and the unique sweetness of rice give this a gentle and robust flavour reminiscent of juicy red honey apples ripened in warm Japanese sunshine.	It has the sweet aroma of a freshly hand peeled ripe peach. Fresh flavours of peach combined with the unique richness of nigori sake make this a full flavoured and juicy fruits liqueur.	A crisp fruity finish with soft sweetness unique to nigori sake. This sake is fresh and refined with notes of freshly peeled pear.	The refreshing aroma of yuzu and its crisp and refreshing bite of acidity paired with the exquisite umami of rice gives it a unique and refreshing taste that makes you want to take another sip.
